## Measurements

- Wear undergarments or a leotard that gives the bust line their typical shape for most accurate measurements.
- Stand straight with weight evenly distributed.
- The measurement tape should be snug but not too tight on circumference measurements and stretched tight for vertical measurements.
- Record measurements in inches where applicable, to the nearest half-inch

**Bust/Chest** – Measure over the fullest part of the chest with arms relaxed at sides.

**Waist** – Measure around where the waist naturally indents. Keep a finger between the tape and belly.

**Girth** – Measure from the midpoint on the shoulder towards the front, through the crotch and back around to meet the midpoint of the shoulder.
